1 ELEKTRIC ARC FURNACE

Tilting Platform
Lower Shell
Upper Shell
Steel Panels
Copper Panels
Roof and Roof Panels
EAF Lifting System
EAF Electrode Arm
EAF Electrode Column
Gantry

2 LADLE FURNACE

Ladle Furnace
Ladle Roof
Lf Electrode Arm
Lf Electrode Column
Lf Lifting System
Dedusting System
Combustion Chamber
Water Cooled Duct
Continuous Casting
Pinch Panel
Ccm Billet Custer
Induction Furnaces

3 FILTERING FACILITIES

Bag Filters
Wet Scrubber Wet Washer
Fixed Bed Adsorption
Expansion Joints
Ducts
Tight Shut-off Louver
Diverter Damper
Stack Damper
Sand Filters

About Us

DNL Engineering has been serving the steel industry both in and out of Turkey since its foundation in 1998. DNL provides equipment and spare parts for Melt shops, Rolling mills, Cement Facilities and Air Filtering Facilities. DNL production focuses low production costs while improving the quality of the finished product. DNL believes in the importance of the human factor and perpetual improvement for its long-term success.

STEEL MILLS

STEEL MILLS

Water- Cooled Equipments for Steel Plants;
Duct, Elbow, Reduction

Water- Cooled Equipments for Steel Plants;
Roof, Upper Sheel, Center Ring

Water Cooled Panels Uppershell panel,
EBT (copper) Panels, Combustion Chamber Panels,CCM Panels

INDUCTION FURNACE

INDUCTION FURNACE

Induction Furnaces

FILTERING SYSTEM

FILTERING SYSTEM

**Stainless-Steel Dust
Collecting and
Scrubber Systems
Multi Cyclon,
Reactor, Venturi,
Scrubber**

Dust Collecting Systems Channels, Mixing Chamber, Spark Arrestor

Dust Collecting Systems

Expansion Joint

Stack Damper, Tight Shut-off Louver, Diverter Damper

Fully Sealed Multi Louver

Sand Filters
